Skills

- **Programming:** Java, C, Python
- **Frontend:** HTML, CSS
- **Backend:** Node.js
- **Database:** MySQL
- **Core:** DSA, Operating Systems

Projects

Adaptive Headlights 30 Days
C

- Developed an adaptive headlights prototype using **C** to improve visibility during night driving.
- Implemented automatic headlight dimming and dipping based on surrounding light conditions.
- Designed the system to contribute to improved road safety and reduce accident risks on curved roads.

Experiences

- Fresher with no professional work experience.

Achievements

- Developed an academic prototype focused on improving vehicle safety through adaptive headlight control.

Education

B.E. in Computer Science and Data Science 2025 – 2029
Adichunchanagiri Institute of Technology, Chikkamagaluru *CGPA: 7.0*

12th / PUC 2023 – 2025
Excel PU College, Mangalore *85%*

10th 2013 – 2023
BGS VS School, Mudigere, Chikkamagaluru *73%*
